

**NIGHTINGALE ANNOUNCES RECORD REVENUE FOR THE SECOND
QUARTER OF FISCAL 2007**
**- Strong quarterly growth in gross profit margin following
integration of recent acquisitions -**

Markham, ON, November 22, 2006 - Nightingale Informatix Corporation ("Nightingale" or the "Company") (TSX-V: NGH) one of North America's fastest growing healthcare application service providers (ASP) of Electronic Medical Record (EMR) and practice management solutions, announces its financial results for the three and six month periods ended September 30, 2006.

Q2 Fiscal 2007 Highlights

- Revenue of \$3.5 million, a 17% increase over Q1 2007 and a 199% increase over Q2 2006
- Gross profit margin was 72%, up from 58% in Q1 2007, and down from 91% in Q2 2006
- Net loss of \$1.1 million compared to a net loss of \$2.3 million in Q1 2007 and a net loss of \$0.28 million in Q2 2006
- Completed the integration of HealthNet and IHPS
- Grew pipeline of U.S.-based opportunities

"We are pleased with our financial performance in the quarter, which was driven by a combination of organic growth and acquisition activity," said Sam Chebib, President and CEO of Nightingale. "During the quarter, we continued to invest in our business to drive product development, enhance our sales, marketing and professional services capabilities, and expand our footprint in the U.S. marketplace. There is strong momentum building in the healthcare market for EMR technology; with our industry reputation and proprietary enterprise platform technology, we are well positioned to capture a significant share of this opportunity."

Q2 Fiscal 2007 Financial Review

Revenue for Q2 2007 was \$3.5 million, a 17% increase over revenue of \$3.0 million for the previous quarter, which resulted primarily from a higher level of software license sales generated in Q2 2007. Revenue for Q2 2007 increased 199% from \$1.2 million generated in Q2 2006. This increase was due primarily to the recently completed acquisitions of IHPS and HealthNet.

Nightingale's gross profit margin was 72%, compared to gross profit margin of 58% in Q1 2007. The margin improvement for the quarter was due to Nightingale's success in increasing its efficiency of service delivery, the reduction of costs related to the operations of recently acquired HealthNet and IHPS, as well as the benefits the Company realized throughout the quarter from higher software license sales, which inherently carry higher gross profit margins. Gross profit margin in Q2 2006 was 91%. The year-over-year decrease in gross profit margin was a result of the revenue mix in the newly acquired businesses that generates a higher percentage of sales from lower margin service revenue.

During the quarter, the Company incurred expenses of \$3.6 million, or 103% of revenue, a 12% decrease from \$4.1 million, or 136% of revenue in Q1 2007. These cost savings were primarily driven by the elimination of one-time expenses the Company incurred in Q1 2007 as a result of the interim debt financing for the two acquisitions. Throughout the quarter, the Company began to rationalize some of the operations across the newly integrated Companies and expects to realize further cost savings in Q3 2007. Expenses for Q2 2006 were \$1.3 million, or 115% of revenue.

Net loss for the three months ended September 30, 2006, was \$1.1 million, \$0.03 per share or 31% of revenue, compared to a net loss of \$2.3 million, \$0.07 per share or 78% of revenue in Q1 2007. Net loss for Q2 2006 was \$0.28 million, \$0.01 per share or 24% of revenue.

Six Month Financial Review

Revenue for the six month period ended September 30, 2006, was \$6.5 million, up 197% from the same period last year.

Gross profit margin for the six months ended September 30, 2006 was 66%, compared to a gross profit margin of 89% generated over the same period in fiscal 2006. The lower margin for the first half of fiscal 2007 was primarily a result of new lower margin sales in Q1 2007 generated by HealthNet and IHPS, which were acquired during the first quarter this year.

The total expenses Nightingale incurred for the six months ended September 30, 2006, were \$7.7 million, or 118% of revenue, compared to \$2.4 million, or 108% of revenue, for the same period last year.

For the six-month period ended September 30, 2006, net loss was \$3.4 million compared to \$0.43 million for the same period in the previous year.

Forward Looking Statement

This press release contains "forward-looking statements" within the meaning of applicable Canadian securities legislation. Generally, forward-looking statements can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of Nightingale to be materially different from those expressed

or implied by such forward-looking statements, including but not limited to: risks related to the speculative nature of the medical software industry, which is affected by numerous factors beyond Nightingale's control; the ability of Nightingale to successfully integrate its acquisitions and any liabilities arising as a result of such acquisitions; the existence of present and possible future government regulation; the significant and increasing competition that exists in the medical software industry; the early stage of Nightingale's business; and therefore it is subject to the risks associated with early stage companies, including uncertainty of revenues, markets and profitability and the need to raise additional funding.

Although Nightingale has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. Nightingale does not undertake to update any forward-looking statements that are incorporated by reference herein, except in accordance with applicable securities laws.
