1. BASIS OF PRESENTATION

The accompanying interim consolidated financial statements of Nightingale Informatix Corporation and its subsidiaries ("Nightingale" or the "Company") have been prepared in accordance with Canadian generally accepted accounting principles ("Canadian GAAP") for interim financial information. Accordingly, they do not include all of the information and footnotes required by Canadian GAAP for annual consolidated financial statements.

The accompanying financial information reflects all adjustments, consisting primarily of normal recurring adjustments, which are, in the opinion of management, necessary for a fair presentation of results for interim periods. Operating results for the three and six months ended September 30, 2008 are not necessarily indicative of the results that may be expected for the fiscal year ending March 31, 2009. The accounting policies used in the preparation of these interim consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto for fiscal 2008.

These interim consolidated financial statements follow the same accounting policies and methods of application as the consolidated financial statements for the year ended March 31, 2008, except as described in Note 2 below. Certain prior period amounts have been reclassified to conform to the current period's presentation.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of consolidation

The financial statements are prepared on a consolidated basis and include Nightingale and its wholly owned subsidiaries, Nightingale VantageMed Corporation, Nightingale HealtheNet Corporation, Nightingale HealtheNet Canada Corporation and VisionMD (2002) Inc.

All significant intercompany balances and transactions have been eliminated on consolidation and certain amounts have been reclassified to conform to the current period presentation.

Use of estimates

The preparation of these consolidated financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

Changes in accounting policies

As required by the Canadian Institute of Chartered Accountants ("CICA"), on April 1, 2008, the Company adopted CICA Handbook Section 1535, "Capital Disclosures," Section 3862 "Financial Instruments-Disclosures," and Section 3863, "Financial Instruments-Presentation." The prospective adoption of these new standards will impact disclosure provided by the Corporation but will not impact its financial position, results of operations or cash flows. Section 1535 establishes disclosure requirements about an entity's capital and how it is managed. The purpose will be to enable users of the financial statements to evaluate objectives, policies and processes for managing capital. Section 3862 and 3863 will replace 3861, "Financial Instruments – Disclosure and Presentation," revising and enhancing disclosure requirements while carrying forward its presentation requirements. These new sections will place increased emphasis on disclosure about the nature and extent of risks arising from financial instruments and how the entity manages those risks.

In May 2007, the CICA issued Handbook Section 3031, which replaces the existing Section 3030 "Inventories." The standard introduces changes to the measurement and disclosure of inventory and converges with international accounting standards. This standard is effective for interim and annual periods related to fiscal years beginning on or after January 1, 2008. The Company has adopted this new guidance effective April 1, 2008. This standard did not have a material impact on its consolidated financial position, results of operations

or cash flows; however, the Company now carries inventory at the lower of cost and net realizable value. Previously, the Company carried inventory at the lower of cost and replacement cost.

In May 2007, the Accounting Standards Board ("AcSB") amended Section 1400, General Standards of Financial Statement Presentation, to change the guidance related to management's responsibility to assess the ability of the entity to continue as a going concern. Management is required to make an assessment of an entity's ability to continue as a going concern and should take into account all available information about the future, which is at least, but is not limited to, 12 months from the balance sheet dates. Disclosure is required of material uncertainties related to events or conditions that may cast significant doubt upon the entity's ability to continue as a going concern. These amendments are effective for the Company for annual periods beginning after January 1, 2008. The Corporation has adopted this new guidance effective April 1, 2008. The adoption of this guidance did not have a material impact on its financial position, results of operations or cash flows.

Recent accounting pronouncements

(i) Canadian standards

In February 2008, CICA issued Handbook Section 3062 "Goodwill and Intangible Assets", which replaces the existing Sections 3062 "Goodwill and Other Intangible Assets" and 3450 "Research and Development Costs." The new standard introduces changes to recognition, measurement and disclosure of goodwill and intangible assets. The provisions relating to the definition and initial recognition of intangible assets are equivalent to the corresponding provisions of International Financial Reporting Standard IAS 38, "Intangible Assets." The new standard also provides guidance for the recognition of internally developed intangible assets, including assets developed from research and development activities, ensuring consistent treatment of all intangible assets, whether separately acquired or internally developed. The Section applies to interim and annual financial statements relating to fiscal years beginning on or after October 1, 2008 with earlier adoption encouraged. The Company will adopt this new guidance effective April 1, 2009. The Corporation is currently assessing the impact of this standard may have on its financial positions, results of operations or cash flow.

(ii) Convergence with International Financial Reporting Standards

On February 13, 2008, Canada's Accounting Standards Board ("AcSB") confirmed the date of changeover from GAAP to International Financial Reporting Standards ("IFRS"). Canadian publicly accountable enterprises must adopt IFRS for their interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The Company is currently in the preliminary stages of its IFRS conversion plan.

3. BUSINESS COMBINATIONS

VantageMed acquisition

On April 18, 2007, the Company completed its acquisition of all the outstanding shares of VantageMed, a provider of practice management software and services to the healthcare industry in the U.S. market. Total consideration including transaction costs was \$14,750,560 (US\$13,316,478 or US\$0.75 per share) for all of the outstanding shares of VantageMed. Cash of \$1,217,473 was included in the acquired assets of VantageMed, resulting in net cash paid of \$13,533,087.

NIGHTINGALE INFORMATIX CORPORATION**NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTH PERIODS ENDED SEPTEMBER 30, 2008**

The allocation of the purchase price to the fair value of the assets and liabilities acquired was as follows:

Current assets	\$ 2,270,337
Property and equipment	61,189
Assets under capital leases	23,967
Accounts payable and other liabilities	(2,528,995)
Current deferred revenue	(3,712,239)
Capital lease obligations	(44,344)
Intangibles	16,491,695
Goodwill	2,188,950
	<u>\$ 14,750,560</u>
Cash consideration	\$ 14,373,362
Transaction costs	<u>377,198</u>
	<u>\$ 14,750,560</u>

This acquisition was accounted for using the purchase method and results have been included in the consolidated financial statements from the acquisition date.

Intangible assets acquired consist of customer contract and contractual relationships, technology and brand names and are being amortized on a straight-line basis over their estimated useful lives ranging from five to ten years.

4. DISCONTINUED OPERATIONS

In February 2008, the Company completed the sale of its Helper business to Netsmart Technologies for a total purchase price of \$11 million (US\$11 million). The Company received cash of \$9.9 million (US\$9.9 million) upon closing and recorded an escrow receivable of \$1 million (US\$1 million), included in Other receivables at March 31, 2008, representing the balance of the consideration. In April 2008, the Company received \$608,332 (US\$600,000) of the escrow receivable and in June 2008, the Company received another \$40,669 (US\$40,000). The balance of the escrow receivable, \$423,960 (US\$400,000), is scheduled to be received in the fourth quarter of fiscal 2009 subject to certain indemnity escrow provisions as outlined in the Asset Purchase Agreement. The Company is entitled to receive additional consideration for the sale in the first quarter of fiscal 2010 based on the occurrence of certain events. The amounts cannot be reasonably estimated and consequently are not included in these financial statements. The Helper business was acquired as part of the VantageMed acquisition (Note 3). The results of the Helper business have been classified as discontinued operations in the fiscal 2008 Statement of Operations.

The assets and liabilities sold included software and certain customer contracts including obligations to provide support and maintenance. The following table provides additional information with respect to amounts included in the financial statements as discontinued operations for the three and six months ended September 30, 2007:

	3 months ending September 30, 2007	6 months ending September 30, 2007

Net Increase in cash from discontinued operations	\$ 247,778	\$ 651,549

5. INCOME TAXES PAYABLE

The sale of the Helper business in the fourth quarter of fiscal 2008 resulted in a taxable gain of approximately \$11 million. The Company was able to apply \$8.3 million of loss carryforwards against the taxable gain and recorded a current tax provision of \$0.9 million relating to the estimated remaining unsheltered portion of the taxable gain. In addition, the Company recorded a \$0.4 million tax provision related to estimated withholding taxes payable. Income tax payable at September 30, 2008 was \$1,377,870 and at March 31, 2008 was \$1,336,270. The Company expects that any actual tax liability associated with the Helper sale will be payable in the first quarter of fiscal 2010.

6. SUBORDINATED DEBT

On April 19, 2007, Nightingale closed a \$12 million subordinated debt financing. The financing was led by Wellington Financial LP and included Export Development Canada, a Limited Partner in Wellington Financial Fund III (the "Lenders"). On November 23, 2007, certain terms and covenants of the subordinated debt were amended. The credit facility is a secured 29-month term loan facility. The subordinated debt bears interest at a rate of 12.75% per annum, payable monthly. Nightingale also provided the lenders with 7,994,186 special warrants ("Warrants"). Each Warrant is convertible into common share purchase warrants, each entitling the holder to purchase one common share of Nightingale at a price of \$0.43 per share for five years from the date of closing. These Warrants and, as applicable, the warrants and common shares, are subject to a four-month hold period, pursuant to securities laws. The transaction costs related to the subordinated debt financing and the November 2007 amendment totaled \$1,160,188 which includes a commitment fee equal to 3.75% of the available facility and a \$250,000 amendment fee. This amendment fee was classified as a current liability at September 30, 2008 and is payable in November 2008.

The proceeds and costs were allocated to the debt and warrants based on the relative fair value of the debt and Warrants. The fair value of the subordinated debt of \$10,425,145 was determined by discounting the future contractual cash flows of the subordinated debt using an interest rate of 21%. The fair value of the Warrants was determined to be \$1,574,855 using the Black-Scholes option pricing model with the following assumptions:

Warrant exercise price	\$0.43
Market value of common shares on date of issuance of Warrants	\$0.43
Risk-free rate	3.95%
Expected volatility	50.0%
Expected dividend yield	0.0%
Estimated life of Warrants	4 years

Based on the relative fair values of the subordinated debt and warrants, proceeds of \$10,425,145 and transaction costs of \$804,595 was allocated to the subordinated debt and proceeds of \$1,574,855 and transaction costs of \$105,593 was allocated to the warrants. The \$250,000 amendment fee was allocated to the subordinated debt.

In February 2008, the term of the subordinated debt was extended to March 2010, and following receipt of a waiver for certain quarterly and cumulative financial covenants, the covenants were amended.

NIGHTINGALE INFORMATIX CORPORATION

**NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTH PERIODS ENDED SEPTEMBER 30, 2008**

During the quarter ended September 30, 2008 the Company experienced a breach of a financial covenant under the loan agreement with its lenders. The Company has received a waiver of the breach from the lenders and certain covenants and other terms of the subordinated debt agreement were amended. Management expects to meet these amended covenants over the remaining term of the loan agreement. The Company has also agreed to amend 50% or 3,997,093 of the Warrants provided to the lenders by amending the exercise price to a current market price and resetting the five year exercise period from the date of the waiver. Such amendments are subject to regulatory approval. The Company has also agreed to repay \$750,000 of the outstanding principal during its second and third fiscal 2009 quarters of which \$500,000 was repaid in September 2008. The remaining agreed upon principal repayment of \$250,000 is classified as a current liability at September 30, 2008. The remaining principal amount of \$5,250,000 is due March 2010.

7. CAPITAL STOCK

a. Stock option plan

The Company has adopted a stock option plan that permits the Board of Directors to grant employees, officers, directors and consultants of the Company non-transferable stock options to purchase up to 10% of the common shares issued and outstanding at any time. Under the plan, no individual person may own greater than 5% of the outstanding stock options. Generally, the stock options vest over four years and are exercisable for a maximum term of five years.

The fair value of each stock option on the date of grant was estimated using the Black-Scholes option pricing model with the following assumptions at the measurement date:

	Options Granted in Fiscal 2009
Risk-free interest rate	3.46%
Estimated volatility	50.0%
Dividend yield	0.0%
Expected life	4 years

i. Summarized information relative to the Company's stock option plan

11. FINANCIAL INSTRUMENTS

For the interim period ended September 30, 2008, the Company has adopted the requirements of The Canadian Institute of Chartered Accountants ("CICA") Handbook Section 3862, "Financial Instruments Disclosures," which apply to fiscal years beginning on or after October 1, 2007. This section requires disclosures relating to the nature and extent of the Company's exposure to risks arising from financial instruments, including credit risk, liquidity risk, foreign currency risk and interest rate risk, and how the Company manages those risks.

NIGHTINGALE INFORMATIX CORPORATION

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS FOR THE THREE AND SIX MONTH PERIODS ENDED SEPTEMBER 30, 2008

Liquidity risk

The Company has sustained losses and negative cash flows from operations over the past three years. At September 30, 2008, the Company has approximately \$3.6 million of cash and short-term investments. There are uncertainties related to the timing and use of the Company's cash resources. These uncertainties include, but are not limited to, the volume of sales, customer acceptance of its solutions and the fluctuation of the exchange rates. As a result, the Company may need to seek additional equity or debt financing, which could include additional lines of credit. There is no assurance that the Company will be successful in its financing efforts or that they will be sufficient.

Credit risk

Credit risk arises from the potential that a counterparty will fail to perform its obligations. The Company is exposed to credit risk from customers. However, the Company has a significant number of customers, which mitigates concentration of credit risk. At September 30, 2008, the Company's two largest customer balances combined accounted for 25% of accounts receivable. One of these customers and a second customer combined accounted for 40% of accounts receivable at March 31, 2008. In order to minimize the risk of loss for trade receivables the Company's extension of credit to customers involves review and approval by senior management as well as progress payments as contracts are executed.

While the Company has credit controls and processes for the purpose of mitigating credit risk, these controls cannot eliminate credit risk and there can be no assurance that these controls will continue to be effective, or that the Company's low credit loss experience will continue. Most sales are invoiced with payment terms in the range of 30 to 90 days.

The Company reviews its trade receivable accounts regularly and writes them down to their expected realizable values, by making an allowance for doubtful receivables, as soon as the account is determined not to be fully collectible. The allowance is charged against earnings. Shortfalls in collections are applied against this provision. Estimates for allowance for doubtful debts are determined by a customer-by-customer evaluation of collectibility at each balance sheet reporting date, taking into account the amounts that are past due and any available relevant information on the customers' liquidity.

The Company's exposure to credit risk for trade receivables by geographic area as at September 30, 2008 was as follows:

United States	\$ 1,551,827	57%
Canada	1,184,023	43%
	<u>\$ 2,735,850</u>	<u>100%</u>

Foreign currency risk

Foreign currency risk arises because of fluctuations in exchange rates. The Company conducts a significant portion of its business activities in U.S. dollars. Portions of revenues and expenses were denominated in US dollars. The assets and liabilities that are denominated in foreign currencies will be affected by changes in the exchange rate between the Canadian dollar and the U.S. dollar. As at September 30, 2008, monetary assets were \$4,511,928 and monetary liabilities were \$3,716,821, resulting in net monetary assets in the amount of \$795,107 denominated in US dollars.

The Company recognized foreign exchange losses in the three and six months ended September 30, 2008 of \$15,536 and \$27,531, respectively, compared to foreign exchange losses in the three months and six ended September 30, 2007 of \$99,324 and \$153,003, respectively.

The Company's objective in managing its foreign currency risk is to minimize its net exposures to foreign currency cash flows by transacting with third parties in U.S. dollars and Canadian dollars to the maximum extent possible and practical.

**NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTH PERIODS ENDED SEPTEMBER 30, 2008**

Interest rate risk

Interest rate risk arises because of the fluctuation in interest rates. The Company is subject to interest rate risk on its cash, short-term investments and debt.

Fair value

At September 30, 2008 the estimated fair values of cash and cash equivalents, accounts receivable and other receivables, and accounts payable and accrued liabilities approximate their respective carrying values due to their short term nature.

At September 30, 2008 the fair value of the Company's subordinated debt is estimated to be equal to its carrying value.

Management of capital

The Company's objective in managing capital is to ensure sufficient liquidity to pursue its growth strategy, fund research and development, and undertake selective acquisitions.

The Company's capital is composed of share capital and subordinated debt. The Company's primary uses of capital are to finance operating losses, increases in non-cash working capital and capital expenditures. The Company currently funds these requirements from cash raised through past share and debt issuances. The Company's objectives when managing capital are to ensure that the Company will continue to have enough liquidity so it can provide its services to its customers and returns to its shareholders.

The Company monitors its capital on the basis of the adequacy of its cash resources to fund its business plan. In order to maximize flexibility to finance the Company's ongoing growth, the Company does not currently pay a dividend to holders of its common shares.
